

My name is JohnTavion Johnson. I am 18 years old from McComb, Mississippi. I am a computer science major. One thing I am very good at fulfilling that which is required of me in a formal and timely manner. One thing I would like improve is being more connected and interested in my writing.

I want a peer group who is not lazy, punctual, effective, not sensitive. I want people who hold others accountable and are very constructive in their feedback. According to the BuzzFeed quiz, I am a member of the Slytherin house.
