Summarize the article -- include your reaction, thoughts, anything to help you remember its claims. 100 to 150 words	This journal teaches how to write a well informed argument essay and how to format it. I think it will be useful as our next MP will be needing scholarly sources and popular sources. An important piece of this paper is its section on credibility which will come useful in our Peer Reviews, the section explains how to use evidence to establish credibility, an example if a writer is considered creative then use evidence to show that. The paper teaches how to research your subject and how to find the resources needed. One of the key things they teach when researching is the use of unbiased resources or if you do use it then you must address the bias in the essay.
